

# Building Safety

**25** (12 College Lane and 13 Manestys Lane) customers provided feedback on the Building Safety and Resident Engagement Strategy (Higher Risk Buildings) and provided suggestions on future Building Safety communication.

## What did you say

**88%** of you felt the Strategy was easy/very easy to understand and there wasn't anything missing.

**84%** of you would like us to share the document by email.

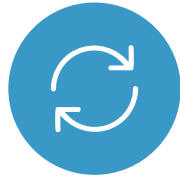

**92%** of you are confident that you know what to do if a fire was to break out in your building.

**76%** of you know how to report building safety concerns.

**84%** of you would like to see more information included in the annual newsletter

**88%** of you would like to receive updates via email.

You put forward ideas to improve the document.

## What we will do

- ✓ By September 25 we are going to create a simpler leaflet to summarise the Building Safety RES.
- ✓ We will include more information about building safety and fire risks such as; the building safety report, structural risk to the building and legislative updates in the annual newsletter and email this to all customers.
- ✓ 76% of you know how to report safety concerns relating to the building however we will look to increase this by working with our communications team to produce a leaflet/poster to be shared within the blocks.
